Experience

IT - End User Compliance   **2019-Present**
3M/KCI   **San Antonio, TX**

Provided company-wide as well as onsite integration and end user services for a large acquisition by 3M of the medical services company KCI.

Key Accomplishments:

- Transitioned hundreds of users onto new PC hardware and network services.
- Handled various hardware, software and network related issues via a ticketing system; collaborating with several different hardware, software and network teams to find solutions.
- Decommissioned a fleet of old printers and setup a new fleet over a 5 building location.

IT / Facility Maintenance   **2014-2019**
DYNON AVIONICS   **Woodinville, WA**

Held dual roles as IT assistant and Facilities Maintenance. Served the manufacturing stations and software development team as IT support for hardware, software and network issues. Maintained all facility aspects from networking to managing the maintenance of lighting, heating, cooling etc.

Key Accomplishments:

- Built out network and power drops for a large warehouse to house plane manufacturing equipment and personnel.
- Installed and assisted with management of a security camera network to monitor entrance and exit points.

Education

Certificate in Full Stack Web Development
University of Texas San Antonio   **San Antonio, TX**

Bachelor of Arts in Human Kinetics
Trinity Western University   **Langley, B.C., CA**
